UNIVERSITY.

MEASURING
EVERY

Working collabora
disciplines to dev
platforms and etc

The first 5 original clips were collected by Lenny Farlee, from Purdue Extension- Forestry and Natural Resources (YouTube)

Workflow

Image collection

Train tree species detection model

Segmentation

Processed images for classification

Long tail dataset

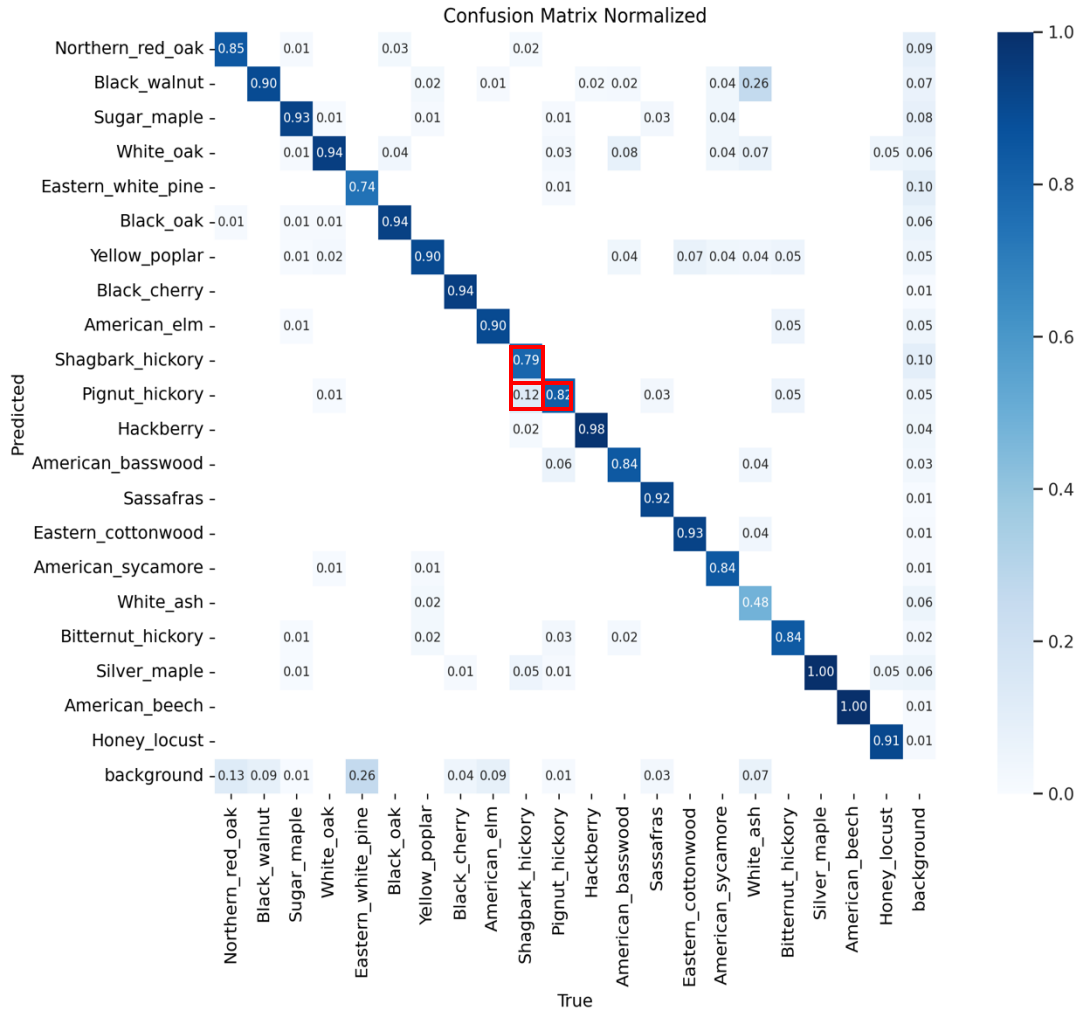

Keep species with images >80

Train on 21 classes, with an accuracy of 0.9.

Shagbark hickory

Bitternut hickory

Are they from the same genus/species?

Thanks for your attention.
